

NORTH STAR SMASHED DOWN BY PREMATURE ATTEMPT TO WREST CONTROL FROM ZADIG

A Tonopah Favorite Treated Like a Football In the Battle for Supremacy That Has Begun Six Months Before the Date of the Next Annual Election.

North Star this morning was the object of a vicious assault on the San Francisco board where the principal trading was done, owing to suspension of business in New York due to the funeral of the late Mayor Gaynor. Under the heavy fire of what is said to be the March interests, abetted by local speculators, North Star was hammered down to 56 and then reacted to 61 bid and no offers. The sales for the morning aggregated 54,500 shares. The opening was 65 and the slump came fast and furious, prices de-

GREAT NORTHERN WRECK TOTALS FOURTEEN INJURED

**OVERLAND DITCHED; WRECKAGE
SCATTERED BY SECOND
TRAIN.**

(By Associated Press.)
EVERETT, Wash., Sept. 22.—Fourteen persons were injured, two seriously, today when several coaches on the Great Northern east bound overland were ditched near here. The west bound overland smashed into the wreckage which was scattered over both tracks.

Rev. G. W. Graunle of Long Beach was seriously hurt.

NYE COUNTY TAX CHANGED TO SUIT COMMISSION

**COMPLETE SCHEDULE WILL BE
SENT TO CARSON CITY
BOARD.**

Nye county is not going to have any trouble with the tax commission as some of the other counties report. The board of equalization has decided that it will adopt as far as possible every suggestion of the commission and in every case the figures of the commission for the valuation of live stock will be substituted for those of the local assessor.

Elko county has refused to send the commission a copy of its tax roll and some of the other counties say it would involve too much work to comply with the wishes of the central taxing body. Chairman Davis, of the Nye county board, does not see any reason why there should be any trouble and he will endeavor as far as possible, to comply with every requirement.

CHOLERA IN BUCHAREST.

(By Associated Press.)
BUCHAREST, Sept. 22.—It is known that 1137 cases of cholera are under surveillance here. Forty-five deaths to date.

Doctor Must Pay Patient \$1400

By Associated Press.
WALLA WALLA, Wash., Sept. 22.—Mrs. Etta Wharton is entitled to \$1400 damages from Dr. W. H. Warner for leaving a 14 inch spring in her body after an operation according to a decision of the supreme court today. The spring used was a "packer" and was in the body 15 days before it was discovered.

HAD HARD TIME COMING BACK TO HIS OLD HOME

**TRIP FROM BUTTE, MONTANA,
THAT LASTED OVER FIVE
WEEKS.**

Fred Smith, the well known restaurant man, returned home to his first love this morning after an experience that he will not easily forget. He went out for the summer taking his bird dogs with him and all equipped for perfect enjoyment of the hot weather in the mountains of Montana and Idaho. He has no particular cause for complaint on this score as he had a splendid time but when he started to return he found his path beset with adversity. On the way from Butte, he was stricken with an attack that was diagnosed as appendicitis and he was taken from the train at Salt Lake and removed to a hospital where he was operated on. There he remained until convalescent and able to resume his journey which landed him in Tonopah this morning.

OLD FIREWORKS EXPLODE IN A NEWS STAND

**LIVELY TIME IN LEWIS STORE
YESTERDAY AFTERNOON
BUT LITTLE DANGER.**

At 12:35 yesterday afternoon the fire department was called to the stationery store of George Lewis on Main street by an explosion that made things hum for a few minutes before the firemen got in their deadly work. An old box of fireworks left over from last Fourth of July caught fire from a candle that had burned out and in a few minutes powder, rockets, Chinese candles and other pyrotechnics were chasing one another merrily around the interior until the occupants sought safety in flight. When the department came the fire was making good headway near the ceiling but the flame was extinguished with a small chemical.

At 6:50 last evening the department was called to the foundry where a core box had taken fire from a small furnace. Damage nominal.

APPOINTMENT TO THE U. S. NAVAL ACADEMY

Senator Newlands has requested President J. E. Stubbs of the University of Nevada to hold a competitive examination for the purpose of selecting a candidate for appointment to fill the vacancy which will exist from this state, June next, at the United States naval academy, Annapolis, Maryland.

The examination will be held at the University of Nevada November 1, 1913. Each competitor must be a citizen of the state; must be between the ages of 16 and 21 years; physically sound, and will be required to pass an examination in reading, writing, spelling, grammar, geography, United States history, world's history, arithmetic, algebra, and plane geometry.

Further information may be obtained from Captain H. L. Applewhite, U. S. army, retired, University of Nevada, Reno.

MCARTHY RALLIES.

(By Associated Press.)
LOS ANGELES, Sept. 22.—Promoter McCarthy recovered sufficiently to return to work after his nervous breakdown resulting from "Bull" Young's death.

Belmont Bullion Shipped Sunday

The semi-monthly shipment of the Belmont was shipped yesterday via Wells Fargo express. This amounted to 75 bars or 152,388 ounces, valued in round figures at \$117,500, compared with 195 bars valued at \$164,000 for the latter half of last month. The difference is due to the loss caused by shut-downs due to the shortage of water at the mill and interruptions caused by electric storms which interfered seriously with the delivery of power.

BURIAL OF LATE MAYOR

**REGIMENT OF POLICE FOLLOW
REMAINS TO PLACE OF
INTERMENT.**

(By Associated Press.)
NEW YORK, Sept. 22.—The body of the late Mayor Gaynor was taken this forenoon from the city hall to Trinity church. Sidewalks were blocked and the crowd was held in restraint by 5000 policemen. First came the mounted police, the police band, a regiment of police on foot, then the coffin ten feet above the roadway on a catafalque drawn by sixteen black horses.

Twelve honorary pall bearers, headed by former President Taft, marched by the side of the coffin. The Episcopal service was read by Bishop Greer. The march was resumed to Greenwood cemetery, Brooklyn. A million children participated in the service.

The stock exchange closed at noon, city departments all day, and a thousand business houses closed for one hour.

WIND TOO HIGH TO SHUT DOWN WATER SUPPLY

**MANAGER BURNHAM PREFERS
TO WAIT A DAY OR TWO
TO REPAIR LINE.**

Owing to the high wind prevailing this morning Manager Burnham of the water company decided not to shut down the pumps for the purpose of repairing the big leak that appeared last Friday. The pipe has been temporarily patched and will last for a few days longer.

This precaution was taken so the camp would not be deprived of water in the event of fire which might develop into a conflagration of great proportions. If the wind abates tomorrow the water will be shut off between 1 and 4 p. m. As a double safeguard Fire Chief Kelly put in commission the big chemical tank.

EUREKA CHILD IS DROWNED IN BARREL

Falling head first into a sunken barrel containing a foot of water, Violet, the three year old daughter of Mr. and Mrs. John Venturino of Eureka received a blow on the temple which stunned her and she drowned before help reached her. The little girl had gone to the field to catch a pony to ride and when she did not return her parents started a search for her. She was found lying face down in the water barrel. Medical attention was summoned but she was beyond aid.

MEPHISTO'S EIGHT.

This is the mischievous name of a club of young girls which meets twice a month at the homes of the members.

Last Friday evening Miss Edna Irene Shields was hostess and after taking in the show Miss Edna entertained the club at her home. Cards, dancing and a delicious little repast filled in the hours. The guests were Anna Malley, Loretta Walsh, Evelyn Collins, Isabella Slavin, Miriam Egan, Florence Gomm, Laurelle Hill.

REDUCING FREIGHT RATES FROM SOUTH TO TONOPAH IS THE LATEST DEMAND

MINE OPERATORS OFFER TO BUY THE MINERS HOSPITAL

**WILL PROVIDE BETTER FACILITIES AND EXTEND SCOPE
OF THE WORK.**

The question of selling the Miners Union hospital to the mine operators will be discussed tomorrow evening at the regular meeting of the Miners union, and if favorable action is taken a referendum vote will be ordered.

The story has been current for some time that an offer has been made to the union by which the operators propose to acquire the property for the purpose of making improvements that will bring the place up to a higher standard than now obtains. The miners admit they have a proposition under advisement and that action will be taken Tuesday night but they do not care to discuss details until the matter is acted upon at this meeting.

Owing to the tentative nature of the movement rumors have been busy distorting the motives of the operators and reports have been circulated that fail to do justice to either side. For the purpose of clearing up misrepresentations the Bonanza applied to the Mine Operators association for confirmation.

The truth of the report that an offer had been made to buy the hospital was admitted but the exact nature of the proposal was withheld until the miners had a chance to reply to the tender.

"Is it the intention to give them the benefit of hospital attendance in case of sickness or only in case of accidents?" was asked.

"They will receive the same benefits they receive now," was the reply. In sickness or injury the treatment will be the same as they receive from the present hospital, except that we hope to provide better service and a more up to date hospital."

"It is rumored that the operators are dissatisfied with the present wage scale and are contemplating a reduction," was suggested.

"There is absolutely no truth to the report as the operators are satisfied with the present wage scale and the existing relations between employer and employee."

"Another report is that the operators propose to withdraw from the present state industrial insurance and that the men would have to go into court to recover any indemnity for injury?"

"The operators are perfectly satisfied with the conduct of the state industrial insurance feature and that there is not the slightest doubt of any change being made in that form of protection as it is apparent at a glance that the law is perfectly satisfactory and likely to be improved with experience."

"What is the object of offering to buy the hospital?"

"The whole object of the proposition is that we believe the men are entitled to the best possible hospital and surgical service. As the men cannot provide it for themselves without heavy expense we have decided to give it at less expense to them and pay part of the expense ourselves. We realize that one dollar a month paid by each man will not be sufficient to meet the expense. We have considered this matter very carefully and have reached the conclusion that the additional cost of operating a hospital that will meet our views will cost considerably more than what we will receive from the men. The present union hospital, without improvements will not meet our requirements, but we are giving the union an opportunity to realize on their investment in the property if they want to, but we figure that it will not be any more expensive for us to build a new hospital."

**Roads From Los Angeles Say They
Are Not Receiving a Fair Proportion
of the Through Rate On Business
Destined for This Point via Ludlow
and Las Vegas.**

On the fifteenth of October the Nevada Railroad commission will be asked by interests representing the Las Vegas & Tonopah and the Tonopah & Tidewater railroads to review a complaint to the effect that the charges on commodities from the south are excessive.

It is alleged by shippers and supply houses in Los Angeles that they are taxed out of proportion to the mileage involved in the haul between the southern seaboard and the mining camps of southern Nevada. Tonopah is their chief objective and it is contended that the Tonopah & Goldfield railroad is receiving more than a fair proportion of the through rate on the rate per ton per mile. This is said to constitute discrimination in favor of San Francisco.

Should the demands of the southern shippers be received with favor by the railroad commission it is said a reduction of from fifteen to twenty-five per cent would ensue and that the greatest benefit would be felt by housekeepers who would find a material reduction on vegetables and other products carried in refrigerator cars.

MAY CLOSE OIL WELLS ON THE SOUTHERN PACIFIC

WASHINGTON, Sept. 22.—Representative Thompson, a progressive from Illinois, introduced today a resolution for a report to the house by the department of justice of the steps taken since suit was filed to recover California oil lands from the Southern Pacific in December, 1912, to prevent the construction of wells and extraction of oil. He said the company has more than 1200 wells and these lands are producing night and day, and \$100,000 in oil is being extracted.

TRIES TO JUMP DOWN MIDWAY MINE SHAFT

**VETERAN ROUNDER PREVENTED
FROM SMASHING HISSELF
DOWN NEW SHAFT.**

One-Eyed Leon, a character of the lower district, who has given the police lots of trouble tried to end his existence last night at the Midway mine. He loaded up with hop and then declared his intention of making a spectacular descent of the Midway mine. He said he had always been eager to get a nice obituary and would furnish the Bonanza with a story that would get a first page position. The only mistake he made was in taking too much yen shee for he was scarcely able to walk when he climbed to the shaft on the northern edge of the district. Fortunately the top man was vigilant and ready to thwart any plans to muss up the nice new shaft for he drove Leon away from the property and chased him down the hill where he left him to ruminate on the ups and downs of life. Then Leon conceived the brilliant idea of drowning himself in the alpine pond and started to wade out where the ground was nice and soft. About this time chief of Police Evans got word of the doings and rushed to the scene with a taxi. He found Leon sprawling around the alimes with only his nose and toes visible.

GEORGE KERNICK BUYS CLAIMS AT GOLD MOUNTAIN

**ONE OF THE FOUNDERS OF
GOLDFIELD COMING BACK
INTO MINING GAME.**

Last Saturday two transfers of property in the Gold Mountain district just across the line of Esmeralda county were recorded. They indicate an awakening in the Gold Mountain district where a large quantity of ore was shipped to Tonopah last summer, and it is rumored that a strong company will take hold of the property for immediate improvement. The entries follow:

W. A. Ingalls to George A. Kernick, all the estate, right, title and interest of the Hasbrough Gold Mining company of Tonopah, of, in, or to the following described property and premises: Sierra Nevada lode mining claim, San Jose lode mining claim, Nettie W. lode mining claim, Golden Gate lode mining claim, together with the improvements thereon. All being situated in the Gold Mountain mining district, Esmeralda county, Nevada, near Tonopah; consideration, \$7109.32.

Thomas K. Chambers to George A. Kernick, all that certain lot, piece or parcel of land situate in the Gold Mountain mining district, county of Esmeralda, known as the "Broad View" mining claim; consideration, \$1.00.

ELECTRIC TRAINS MEET WITH FATAL RESULTS

(By Associated Press.)
NEW YORK, Sept. 22.—Three employees were killed and 29 passengers injured in the collision of electric trains on the Long Island road while running 40 miles an hour. They met on a curve.

PRESIDENT WILSON WILL SIGN TARIFF THIS WEEK

(By Associated Press.)
WASHINGTON, Sept. 22.—The president told callers today that he believed all tariff differences were settled and he would sign the bill this week.

Bryan Pays for Educating Boys

(By Associated Press.)
WASHINGTON, Sept. 22.—Senator Martine, in defending Bryan's lecture tours told the senate today of some of Bryan's "fixed charges" which were the education of several young men. He said: "A few years ago Bryan was maintaining the education of two boys from Japan, and today I believe he is educating three or four young men."

TEMPERATURE REPORT.

Highest temperature yesterday, 81; a year ago, 79.
Lowest temperature last night, 49; a year ago, 51.
